## POWER SUMMIT 2023

### The Time is Ripe!

The World Congress of Accountants (WCOA), held recently in Mumbai, from 18-22 November 2022, has not just stirred the accounting profession, but shaken it. Thousands of members of our profession from all over the country and overseas, met at Mumbai and went back 4 days later with lots of ideas, aspirations, and thoughts. At the WCOA, many CA firms put up stalls showcasing their strengths and growth ambitions; and, tremendous opportunities for networking and assimilating information about the accounting profession worldwide were created.

The Power Summits held periodically by the BCAS have been a platform for professionals in practice, wishing to chart the growth trajectory of their firms with strategic thinking and clear intention. Post the WCOA, the BCAS team has been repeatedly approached to organize another "Power Summit" – this time, with the specific agenda of riding the immense momentum created at the World Congress. The loyalists of the past Power Summits have suggested that the next Power Summit must move from discussions to strategies, from deliberations to collaborations and from future plans to present action.

The message that we have been getting all along is clear – **The Time is Ripe!**
