1. General macro level changes

Sr. No.	Existing provision under the Income-tax Act, 1961 ("the Act")	Difficulties / Obstacles / Hurdles faced	Suggestions
1.1	Tax rates for non corporate tax payers	<p>Recently, tax rates for corporates have been reduced and MAT rates have also been reduced. However, the rates of tax for non-corporates, such as LLPs, partnership firms and AOPs, continue to be high. Similarly, the tax rates for individuals earning high income are also exceedingly high.</p> <p>Capital gains, other than those under section 111A, 112A or 115AD, are also subject to high surcharge applicable to individuals.</p>	<p>It is therefore suggested that the rate of tax (including surcharge and cess) for all non-corporate entities (including LLPs and AOPs) should be brought down to 25%.</p> <p>The tax rates for individuals should be reduced, say to maximum 30% (including surcharge and cess). Also, the maximum rate excluding surcharge, which is presently applicable for income over Rs 10 lakh should be triggered only at a much higher base, say Rs 30 lakh.</p>
1.2	Long term capital gains on sale of listed equity issues	<p>There are certain unaddressed issues in cases of inheritance, amalgamation, and demerger that would result in unwarranted litigation.</p> <p>While grandfathering as on 31st January, 2018 is available for listed shares acquired prior to 1st February, 2018, there is no clarity in situations where the shares have been received on or after 1st February 2018 by virtue of holding in listed company shares prior to 1st February, 2018. For instance, shares received by way of inheritance, bonus shares or shares issued on merger/ demerger after 31st January 2018.</p>	<p>It is recommended that all shares received by virtue of transactions covered under section 49 should be eligible for grandfathering under section 55(2)(ac) (such as shares received on inheritance, shares acquired on merger/ demerger).</p>

Sr. No.	Existing provision under the Income-tax Act, 1961 ("the Act")	Difficulties / Obstacles / Hurdles faced	Suggestions
1.3	Income Computation and Disclosure Standards (ICDS)	<p>The introduction of ICDS has only added to the compliance burden on certain tax payers without actually increasing the revenue collection. Ind AS is anyway applicable to a large number of companies.</p> <p>Conceptually, tax should be paid on income and logically the income should be that which is in the books of accounts, especially if they are audited and maintained in accordance with generally accounting principles, except to the extent of adjustments on fair value accounting which does not either cause income or create losses in a recognised sense, as required under IFRS or Ind AS.</p> <p>ICDS has only succeeded in introducing significant complexity in the computation of income. Further, the ICDS are inconsistent with the concept of real income. In most cases, the main objective behind enacting the ICDS seems to be to prepone the taxation of income.</p>	<p>The ICDS should be scrapped with immediate effect.</p> <p>Instead of having separate computation standards in the form of ICDS, it would be advisable to identify items under Ind AS that do not meet the criteria of real income or accrued expense or loss and the relevant section(s) in the Act could be modified to require adjustments to the declared profits for all items as identified above, so as to reflect only real income.</p>
1.4	Payment of advance tax – section 209	The threshold limit of INR 10,000 for payment of advance tax as per section 208 has been last amended by Finance Act, 2009. Considering the inflation in the economy, there is a need to increase	The threshold for payment of advance tax should be increased from the present Rs. 10,000 to Rs. 1,00,000.

Sr. No.	Existing provision under the Income-tax Act, 1961 ("the Act")	Difficulties / Obstacles / Hurdles faced	Suggestions
		<p>this limit to a more realistic figure.</p> <p>Further, the requirement to pay 15% advance tax for non-corporate assesses by 15th June causes unnecessary hardship, since it is extremely difficult to estimate the total income for the entire year within a mere 75 days from the commencement of the financial year. The hardship is further compounded by the levy of interest u/s. 234C for shortfall in the instalment of advance tax paid.</p>	<p>The requirement to pay 15% advance tax by 15th June for non-corporate assesses should be removed.</p>

2. Salary

Sr. No.	Existing provision under the Income-tax Act, 1961 ("the Act")	Difficulties / Obstacles / Hurdles faced	Suggestions
2.1	Interest on self- assessment tax	<p>Because of short deduction by the employer on account of change of employment, many times the excess tax has to be paid in form of SA Tax by the employee.</p>	<p>Interest u/s. 234B and 234C for short deduction or deferment in payment should not be charged to employees on account of failure of deduction on the part of employer.</p>

3. House Property

Sr. No.	Existing provision under the Income-tax Act, 1961 ("the Act")	Difficulties / Obstacles / Hurdles faced	Suggestions
3.1	<p>Section 23</p> <p>New clause be inserted to provide deduction of maintenance charges paid to Society, federation etc.</p>	<p>In most urban areas, maintenance of building is undertaken by the society, federation, company or common body and the expenses for such maintenance are substantial. The same need to be allowed as deduction against rental income so as to ensure that it is only the real income that is brought to tax. There is a spate of litigation that prevails in the country on account of this item of expense. Amending the law and allowing a deduction for the same would lead to considerable reduction in litigation.</p>	<p>Contribution towards maintenance charges actually paid to society, company, federation or common body should be allowed as deduction.</p>

4. Business Income and Expenditure including deductions

Sr. No.	Existing provision under the Income-tax Act, 1961 ("the Act")	Difficulties / Obstacles / Hurdles faced	Suggestions
4.1	<p>Explanation 2 in sub-section (1) of section 37 provides that any expenditure incurred by an assessee on the activities relating to CSR referred to in section 135 of the Companies</p>	<p>As per the Companies Act, 2013, it is mandatory for specified companies (as per Section 135) to spend 2% of their average profits towards Corporate Social Responsibility. These expenses are all connected to social and charitable causes and not for any personal benefit or gain. It is,</p>	<p>There is a strong need to revisit this provision and companies should be allowed 100 per cent deduction of CSR under section 37.</p> <p>If at all required, necessary safe guards may be</p>

Sr. No.	Existing provision under the Income-tax Act, 1961 (“the Act”)	Difficulties / Obstacles / Hurdles faced	Suggestions
	Act, 2013 shall not be deemed to be an expenditure incurred by the assessee for the purposes of the business or profession and deduction shall not be allowed.	therefore, fair to allow the same as business expenditure. There is no bar on allowability of CSR expenditure falling under other sections like 35, 35AC etc.	incorporated.
4.2	<p>Certain expenses being of revenue nature or of deferred revenue nature are considered as capital in nature and are disallowed. They are not allowed even by way of amortisation /depreciation. For example:</p> <ol style="list-style-type: none"> 1. Fees for increase in authorised capital; 2. Infrastructure set up by third party for a new project by an Assessee; 3. Website expenses for newly commenced business; 4. Amortisation of Lease premium for Land; 5. Factory shifting expenses; 	<p>Presently, expenditure of the nature described in first column suffers permanent disallowance resulting into higher tax liability in the hands of an assessee. Though there are several decisions allowing depreciation on some of such expenses, in the absence of a clear legislative framework, it leads to increase in litigation. In order to simplify the computation of business income, such expenditure requires to be allowed either as revenue or in deferred manner or by way of depreciation.</p>	<p>Expenditure which are incurred in the course of business may be allowed either as revenue or, if treated as capital, then, such expenditure is to be allowed in deferred manner or by way of depreciation.</p> <p>Hence, specific provision may be inserted.</p>

	<p>6. Expenditure for setting up separate and independent unit;</p> <p>7. Non-compete fees;</p> <p>8. Lease expenditure / Payments.</p>		
4.3	<p>S. 43CA(1) reads as follows:</p> <p>Where the consideration received or accruing as a result of the transfer by an assessee of an asset (other than a capital asset), being land or building or both, is less than the value adopted or assessed or assessable by any authority of a State Government for the purpose of payment of stamp duty in respect of such transfer, the value so adopted or assessed or assessable shall, for the purposes of computing profits and gains from transfer of such asset, be deemed to be the full value of the consideration received or</p>	<p>The word ‘transfer’ as defined in section 2(47) is only in relation to a capital asset. As section 43CA applies to stock in trade which is outside the definition of ‘capital asset’, section 2(47) will not apply to section 43CA. Therefore, to bring clarity and avoid unwanted litigation, an Explanation needs to be inserted in section 43CA defining the word ‘transfer’.</p> <p>In case of percentage completion method, the income is offered for taxation based on the stage of completion of project in different years. Taxability u/s 43CA should also be correspondingly linked to different years. However, in the absence of a clear provision and also due to the absence of the definition of the word ‘transfer’, this may lead to unwanted litigation as to the year of taxability.</p> <p>The ‘ready reckoner value’ fixed by State Governments for an under-construction property</p>	<p>The word ‘transfer’ should be defined for the purpose of S. 43CA.</p> <p>For a building under construction there should be a discount /reduction from the value adopted for the purpose of stamp duty.</p> <p>The year of taxability of difference between the actual consideration and the stamp duty value should be clearly prescribed.</p> <p>Similar amendments may be incorporated in section 50C and 56(2)(vii).</p>

	accruing as a result of such transfer.	and a ready possession property are the same. It is common knowledge that the property rates vary according to the stages of construction. If a person books a flat today in the year 2020 in a big project, whose possession is likely to be received in the year 2023 (though the builder might claim it to be in the year 2021), the rates would be substantially different from the rates for a ready possession property. Further, in many cases, the builder offers the properties at much lower rates in the pre-booking stage, to finance the construction. It is openly advertised in newspapers etc for discounts in pre-booking stage. But the ‘ready reckoner value’ does not provide for any concession for such under-construction properties.	
4.4	Section 44AD relating to presumptive taxation applies only to businesses run by resident Individual, HUF and Firms excluding LLP.	Tax on presumptive basis should be extended to all assessees, including a LLP. Section 44AD excludes LLP, for which there appears to be no cogent reason. Otherwise under the Act, a LLP and a Firm are treated at par. Even section 44ADA does not exclude LLP.	The benefit of section 44AD should also be made available to LLP.
4.5	Section 44AD (4) In section 44AD(4) provides as	The businesses are highly unpredictable and casting additional burden of continuous reporting of presumptive income for five years will be	The sub section (4) may be deleted and the concept of declaration of deemed income for continuous period of 5 years to be removed and

Two difficulties arise in this connection</p> <p>(a) what would constitute turnover in the case of a futures contract is not defined in the Act. The Institute of chartered accountants (ICAI) has recommended that the sum total of differences (irrespective of whether they are positive or negative). There is a school of thought that the contract value of the future should be considered</p> <p>(b) It is highly unlikely that the profit from the turnover of such differences is 6% or more.</p> <p>This results in virtually every person who carries out derivative transaction being liable to tax audit on a literal interpretation of the provision.</p>	<p>possibility of revenue leakage as these transactions carried out through a stock exchange are fully recorded and such information is readily available with the Department.</p>
4.7	<p>Presumptive taxation section 44AD and section 44AB.</p>	<p>If the cash receipts and payments does not exceed 5% of the aggregate receipts and payments, tax audit is applicable under section 44AB only if turnover exceeds INR 10 crores. For an assessee who has turnover between 1 crore to 2 crores i.e. the presumptive tax limit, if the assessee shows profit less than 6%, than</p>	<p>Provisions u/s. 44AD and section 44AB and the audit limit should be streamlined and the assesseees who have lower turnovers should not be at a disadvantageous position as compared to assesseees having higher turnover.</p>

		<p>compulsory tax audit will have to be done under section 44AB read with section 44AD.</p> <p>Thus, an assessee having turnover between 2 crores to 10 crores can continue to show lesser than 6% profit and still avail benefits of not undertaking tax audit.</p>	
4.8	Tax audit in case of partners of firm	<p>In case of a partner of a partnership firm, his share of profit is exempt under Section 10(2A) as the firm pays the tax at the maximum marginal rate. The remuneration and interest received by the partners from the firm is taxable as Business Income. In such cases, an issue has been raised in some cases that even partners are required to get their accounts audited if their share in profit and/or remuneration / interest from the firm exceeds the threshold provided in Sec. 44AB notwithstanding the fact that the accounts of the partnership firm have already been audited under Section 44AB.</p>	<p>A clarificatory amendment should be made in Section 44AB to provide that for the purpose of applying Section 44AB in the hands of the partners, the share of profit and/or remuneration/interest received from the firm shall not be taken into account while determining the amount of threshold provided in Section 44AB.</p>
4.9	<p>Depreciation Allowance – Sec. 32</p> <p>Restoration of Depreciation Allowance in respect of cost of</p>	<p>In the past, with a view to avoid litigation on the point of nature of expenditure (i.e. capital or revenue) in respect of purchase of small items of assets, provisions had been introduced to treat cost of such assets as depreciation allowance.</p>	<p>The above provisions should be reintroduced, with a condition that the same would not apply where the total value of such additions during the year exceeds 10% of the opening written down value of the relevant block of depreciable assets.</p>

	small items of assets.	<p>Earlier, the limit on cost of such assets was Rs. 750/-. This was then increased by the Finance Act, 1983 to Rs. 5,000/-, again for the same reasons. These provisions have been omitted w.e.f. A.Y. 1996-97. The omission of the above provisions has created unnecessary hardship of keeping records in respect of purchases of such small items. This was a useful provision to maintain simplicity and to avoid possible litigation on such small items of assets, based on principles of materiality.</p> <p>Such a provision will act as a check on the temptation to abuse but at the same time, will serve the purpose for which it was originally introduced.</p>	
4.10	Section 80 IBA – Deduction of 100% of profits derived from development of affordable housing projects	Under section 80-IBA, as inserted by the Finance Act, 2016 applicable w.e.f. 01.04.2017, deduction of 100% of profits derived from development of affordable housing projects approved on or after 01.06.2016 is available, subject to fulfillment of specified conditions. It prescribes multiple conditions to be fulfilled by assessee in order to claim deduction under this section. The Finance Act, 2017 has further relaxed some of the relevant conditions. As per section 80-IBA(2)(a), the	It is humbly requested to recommend suitable amendments such that the provisions of sub clause (b) of sub-section (2) of Section 80-IBA dealing with the project completion time-limit in Section 80IBA of the Act, be suitably amended so as to provide that the project ought to be completed within a period of ,say, seven years (instead of five years, as it currently provides) from the date on which an eligible assessee has obtained approval of the building plan (i.e. after

		<p>project is to be approved by the competent authority on or before 31.03.2022.</p> <p>Further, another condition is that the project is to be completed within a period of five years from the date of approval by the competent authority. Real Estate developers engaged in such projects are finding it extremely difficult to meet this timeline of 5 years.</p> <p>As you may be kindly aware that from March 2020, Covid 19 has upset the apple cart not only for India but for the world. Several nation-wide lockdowns (were imposed during the first wave of Covid 19 from March 2020 onwards) and several State-wide lockdowns (were imposed during the second wave of Covid 19 from March 2021 onwards) derailed the on-going housing projects. It led to reverse migration of labour resulting in labour shortages, thereby slowing down construction activity. There was absolutely no movement of either material or labor at project sites. All ongoing real estate projects in the country came to a sudden halt. Also, the pandemic lead to low sales and poor profitability for the real estate sector. Severe liquidity crunch and tight cash-flows has engulfed the whole economy and real estate sector is worst affected.</p>	<p>having fulfilled the terms and conditions, so as to commence construction, as required by the respective competent authority) of such housing project by the competent authority.</p>

Sr. No.	Existing provision under the Income-tax Act, 1961 ("the Act")	Difficulties / Obstacles / Hurdles faced	Suggestions
		<p>Post outbreak of the pandemic, the homebuyers have lost significant appetite to buy residential property due to their own low- and doubtful-income levels. The tight financial situation has prompted many developers to take tough decisions of significant pay-cuts to existing staff and in some cases even reducing the employee strength.</p> <p>Here, it is not out of place to mention that, looking into the massive disruption caused by the pandemic some interim immediate reliefs were provided by the Government/ relevant statutory authorities such as (a) Moratorium regulatory package allowed by the RBI w.r.t relaxing certain repayments and improving the access to working capital by mitigating the burden of debt servicing, etc and (b) Regulatory Authorities (RERA) of various states such Maharashtra, Gujarat, Uttar Pradesh, Tamil Nadu, etc also issued orders in respective states for extension of completion dates of real estate projects registered under provisions of RERA by up to 6 months, recognizing and invoking "Force Majeure" for the Covid 19 pandemic.</p> <p>There is an urgent need to provide relief to the real estate sector in current tough times. In order</p>	

Sr. No.	Existing provision under the Income-tax Act, 1961 ("the Act")	Difficulties / Obstacles / Hurdles faced	Suggestions
		to maintain project feasibility and solvency, the timeline of 5 years needs to be appropriately extended as affordable housing projects operate on wafer thin margins. Developers tend to make affordable housing projects more accessible and reachable to home-buyers by passing on the tax-breaks to them.	
4.11	Section 44ADA – Presumptive Taxation for professionals	<p>Professions have to offer profit percentage of 50%, the initial recommendation was 33.33% for professional fees less than INR 50 Lakh.</p> <p>From assessment year 2021-22, partnership firms and LLP's are entitled to the benefit of the presumptive provision. However it appears that the profit percentage of 50% has to be submitted to tax after allowance of partners remuneration. The profit of most professional firms is shared by the partners by way of remuneration which is subjected to tax in their hands and is in fact treated as a special share of profits. Therefore achieving a 50% percentage of profit after remuneration is extremely improbable if not impossible. This would then necessitate all professional firms with receipts of less than INR 50 lakhs to conduct a tax audit.</p>	<p>The percentage should reduce considering that lot of expenses are incurred by professionals too these days specially for technology and marketing. The presumptive percentage should reduce to 33 % and even the gross receipts limit should be enhanced to INR 1 crore from INR 50 Lakhs.</p> <p>The profit percentage of 50% should apply before remuneration to partners.</p>

5. Capital Gains

Sr. No.	Existing provisions under the Income-tax Act, 1961 (“the Act”)	Difficulties / Obstacles / Hurdles faced	Suggestion
5.1	<p>S. 54EC</p> <p>The section restricts exemption for investment in capital gains bonds up to INR 50 Lakh. In addition thereto the benefit is available only for transfer of land or building.</p>	<p>On account of the restrictive nature of the current provision the benefit is restricted only to a few taxpayers. Those taxpayers who transfer assets other than land and building say shares are not eligible. Further since the words used are land and building, it is debatable whether rights therein or in regard thereto, say tenancy or leasehold rights will qualify. Further the limit is also small considering the possible gains by senior citizens who have held assets for a very long period.</p>	<p>The ceiling for making investment in specified assets be increased from Rs. 50,00,000 to Rs. 1,50,00,000.</p> <p>It is also suggested that the restriction in regard to the asset class should be removed. This will also help the Government in generating funds at much lesser cost, especially when the government is burdened with high cost of borrowing. This step will also will provide impetus to the infrastructure sector. Further, since the lock in period has now been increased to 5 years, if the limit is also increased, the government will have more funds for a longer period at lower cost.</p>
5.2	<p>Under section 54F, the deduction is available only if the assessee does not hold more than one residential property at the time of making investment under this section.</p>	<p>Similar provisions of restriction of holding one property is not present in section 54 which is also an investment linked deduction.</p>	<p>If the assessee is making an investment of sale proceeds than deduction should be allowed across all sections of deductions irrespective of number of residential properties held by the assessee.</p>
5.3	<p>Clause (xiib) to section 47 excludes the conversion of</p>	<p>Such a small limit is a big hindrance on the</p>	<p>The said limits should be removed or else</p>

One of the conditions is that the total sales, turnover or gross receipts in the business of the company in any of the three preceding previous year should not exceed Rs. 60 Lakh.</p> <p>Also, there is another condition wherein the total assets during the previous 3 years should not exceed 5 crores.</p>	<p>conversion of the company into a LLP.</p> <p>Provisions of the new Companies Act 2013 have created various anomalies as well as complication for doing business</p> <p>FDI restrictions in LLPs have also been relaxed by Central Government.</p> <p>Continuing with the restriction of turnover is against the concept of ease of doing business in India.</p>	<p>increased substantially.</p> <p>Turnover limit may be increased to 10 crores and the total assets limit may be increased to 20 crores.</p>
5.4	<p>Secs. 47(x) & (xa) and 49(2A) - Capital Gain on Conversion of Foreign Currency Exchangeable Bonds (FCEB), Other Bonds & Debentures.</p>	<p>It is suggested that appropriate amendment should be made in Section 2(42A) to provide that holding period of such shares should be taken from the date of acquisition of FCEB/debentures/ other bonds and not from the date of allotment of shares.</p>	<p>Sec. 47 (xa) read with Section 49(2A) effectively provide that conversion of FCEB in to shares of any company will not give rise to capital gain and for the purpose of computing capital gain arising on sale of such shares at subsequent stage, cost of acquisition shall be taken as the relevant part of cost of FCEB. There is no corresponding provision for taking holding period of the shares from the day</p>

			of acquisition of the Bonds [FCEB]. Similar difficulty exists in case of conversion of debentures and other bonds in to shares for which also similar provision exists in Section 47(x).
5.5	Taxation of Capital Gains in case of Development Agreements	<p>Presently, most new constructions in cities take place where the developer/builder acquires a property or development rights in a property and consideration is to be discharged fully or partly by giving the landowner constructed area in the developed property. This is a business reality. It is practically impossible for the landowner to discharge the capital gain tax liability when he has not received the consideration in form of constructed area in the developed property. This also leads to dispute with the Department as to the point of time when transfer as contemplated u/s 2(47) has taken place under a Development Agreement.</p> <p>Similar provision for taxing capital gain in a subsequent year exists u/s 45(2) of the Act where a capital asset is converted into stock in trade.</p>	With a view to avoid genuine difficulty in discharging the capital gains tax liability and avoid dispute as to the time of transfer, it is suggested that where the consideration for transfer of property in pursuance of a development agreement or otherwise is to be received in form of constructed area, capital gain may be computed in the year in which the transfer takes place but the capital gain so far as it relates to the consideration to be received in form of constructed area be charged to tax in the year in which such constructed area is received by the transferor landowner.

This is likely to cause unintended litigation and disputes.</p> <p>Section 45(2) lays down the taxation of gains arising on conversion of a capital asset into stock in trade of a business carried on by the assessee. 5.7	Distribution of capital assets on dissolution of firm to partners - Sec. 45(4)	<p>In the event of distribution of capital assets to partners on dissolution of a partnership firm, tax on notional capital gain is levied on the firm by taking fair market value of such capital assets as the consideration irrespective of causes or motives of dissolution. This, at times, results into serious hardships on a literal construction of Section 45(4) e.g. if a firm is dissolved due to demise or insolvency of one of the partners of the Firm.</p>	<p>Section 45(4) should not be made applicable in the event where a firm gets dissolved on account of the circumstances beyond the control of the partners such as demise or insolvency of a partner or on account of operation of statutory provisions of any other law etc.</p>

5.8	Distribution/transfer of Capital Assets, stock in trade to Partners - Removal of serious hardships - Sec. 9B, 45(4)	Neither Section 9, B. 49 nor Section 55 of the Act provide that if the firm has paid Capital Gains tax on distribution of capital assets on dissolution or otherwise, the cost in the hands of the concerned partner will be the value at which the firm is deemed to have transferred the asset to the partner.	Sections 9B, 49/55 should clarify that in such cases, cost to the partner will be the value on the basis of which the firm has been assessed to profits and gains of business or profession or capital gains.
5.9	Section 50CA Special provision for full value of consideration for the transfer of shares other than quoted shares	<p>.</p> <p>The provision is likely to create prolonged litigation in many cases, on account of the vague and complicated definition of ‘quoted shares’ contained in the Explanation.</p> <p>Further, the term “shares” is not defined. Therefore, disputes could arise as to whether preference shares are also covered by this provision.</p>	<p>To bring more clarity, the definition of “quoted share” may be amended as under:</p> <p><i>‘Quoted share’ means the equity share quoted on any recognised stock exchange and traded on not less than such number of days during the period of 12 months preceding the date of transfer as may be notified, where the quotation of such share is based on current transaction made in the ordinary course of business.’</i></p> <p>Suitable amendments should be made in section 50CA to make it applicable only to shares of a company in which the public is not substantially interested.</p>

Under section 54F of the Act, exemption is available (subject to conditions) if residential house is purchased pursuant to transfer of long-term capital asset (other than residential house).</p> <p>However, the Act is silent about situation when a shopkeeper hands over possession of his shop (commercial premises) in an old building in exchange of shop (commercial premises) in new building. Under the municipal laws (example section 353B and 354B of the Mumbai Municipal Corporation Act, 1888), in order to protect the interest of public, such buildings are to be compulsorily redeveloped. The view adopted by CBDT need not always be the correct legal view of the matter. Further it is settled position that the CBDT orders and instructions are not binding on the assesseees. Only courts have the power to interpret the provisions of the law in the correct manner. If revision is permitted on the basis of clause (c) of the Explanation 2, it is likely to result in anarchy specially in situations where the view of the CBDT on a particular matter is different than the view emerging from various judicial decisions of either the High Courts or the Supreme Court.</p>	It is suggested that clause (c) should be deleted from Explanation 2 to section 263 of the Act.

In such a situation the earlier decision, which has been overruled due to subsequent decision of the courts will not have be a binding precedent and therefore should not be allowed to be the basis of revision u/s 263.</p> <p>If the revision is allowed on the basis of a decision which has already lost its binding precedent, it will result in judicial impropriety and the same can certainly not be the intention of any provision of law.</p>	<p>It is suggested that the words “any decision” in the clause should be replaced by the words “the decision being a binding precedent on the subject at the time of passing of the order by the assessing officer”.</p> <p>Alternatively, the clause should apply prospectively.</p>

Such amount can be adjusted and appropriated against the liability of tax deducted by way of debit to the account. Excess amount to the credit of the assessee should be refunded or carried forward at the discretion of the assessee after filing and processing of the e-tds statement filed for the last quarter.</p>

10.7	Exemption of TDS when the deductee is a registered charitable organisation and approved by the new application made.	As per the amended charitable trust provisions, every charitable trust has to register afresh and get its objects verified. Where the Charitable Trust is a deductee, the TDS provisions should not apply so that such trusts are unnecessarily not put to hardship of claiming refund and blockage of their funds.	TDS provisions should not be made applicable when the deductee is an approved Charitable Trust. The newly registered Trusts are to be granted a unique registration number (URN). The exemption from deduction should be granted on the basis of such URN.

Provided the Tribunal may pass an order under this subsection after six months but not beyond 1 year, after condoning the delay for the reasons recorded in writing. "
11.3	Section 144C(2) – requirement of filing voluminous details within 30 days	The assessee has to file voluminous objections in form 35A, within 30 days of receipt of the order. 30 days is very short time to compile and file before the DRP. There are many mistakes and further many arguments are also missed out.	Either the time limit of 30 days may be increased to 60 days or, in the alternative, format of Form 35A should be revised only to include grounds and statement of facts as are before CIT(A).
11.4	Section 144B- Faceless Assessments	The opportunity for personal hearing is given under the section only at the discretion of the authority. Further, the transfer of case from faceless to JAO can be done only at the discretion of authorities.	i. Opportunity should also be given to assessee for personal hearing of video conference and the same being a constitutional right, it cannot be subject matter of discretion. ii. Some suitable exceptions are required in the faceless assessments like set aside assessments, cases of super senior citizens, cases of individuals having only salary income and paying TDS, technologically backward states etc.</p>
11.5	All other Faceless sections – for appeals, penalty and Re-opening	The provision to introduce the faceless schemes for a majority of the procedural sections have already been made in the Act, however there is no scheme which has been enacted yet for those sections. This creates confusion as to what is the current status of these sections, whether they continue to be done physically or they fall under faceless set of schemes. (Practically notices for all such sections except for section 148 are continued to be sent through NeFAC)	Suitable quick measures should be taken to correct these anomalies and bring the schemes as provided for at earliest. Further substantive procedural changes should be brought in the Act itself and should not be left to circulars and notifications.

12.7	Section 12A(1)(ab) Information regarding modifications of the objects which do not confirm to the conditions of registration	The time limit of 30 days is too short. Many NGOs are run by volunteers. It is unfair to cast such an onerous responsibility on them. For example, where the amendment to the trust deed is sanctioned by a Court etc., it may take time to get copies of the court order. 30 days' period is impractical and merely onerous.	Instead of 30 days, the time limit should be 6 months.
12.8	Section 12A(1)(ba) Condition of filing the return of income within the time specified in section 139(4A)	The condition of filing the return of income within the time specified in section 139(4A) is too harsh and unfair. There could be several genuine reasons for a charitable trust not being able to file its return in time.	This clause (ba) should be suitably amended to provide for condonation of delay in case a reasonable cause is provided by the concerned trust. Alternatively the exemption should commensurate with the delay in filing the return of income.

14.1	Meaning of the term "Close connections" in sec. 80IA(10) not defined anywhere in the Act.	It is, therefore, suggested that the same should be defined.	This will bring clarity to the said definition.
14.2	The threshold limit of related party transactions for invoking SDT is very low at Rs. 20 crores considering that it is aggregate of all such transactions.	It is suggested that the said limit should be enhanced to at least Rs. 50 crores so that the small and medium companies will be out of the ambit of SDT since, otherwise, it imposes a lot of burden on such enterprises.	

15. GAAR

Sr. No.	Existing provision under the Income-tax Act, 1961 ("the Act")	Suggestion	Justification for the suggestion
15.1	Entire Chapter X-A GAAR	It is humbly suggested that keeping in view the intent and the purpose of the GAAR provisions the same may be restricted only to the Non-Resident Tax payers.	<p>GAAR provisions were introduced as an aftermath of the verdict of the Hon'ble Supreme Court in the case of Vodafone Holdings (341 ITR 1). As per the current GAAR provisions the Revenue is empowered to declare certain arrangements as Impermissible Avoidance Arrangements and by virtue of which it is entitled to completely withdraw the tax benefits or alternatively determine the taxability of the parties to the arrangement both under the Act as well as any of the Tax Treaties. Based on the above, it appears that any and every transaction could be tested and declared as impermissible.</p> <p>It is highly possible that even Residents may be tested and thereby brought to tax as per the GAAR provisions. This despite the fact that in case of residents there are ample anti-avoidance provisions, (more rigorous and specific in nature) in the Act. For e.g. section 56, section 40A, 2(22)(e), 94(7), 94(8), Chapter X, etc. Applying GAAR in case of residents may land the resident tax payers in a situation of double jeopardy. Further certain transactions in the case of Residents which at times may be</p>

Sr. No.	Existing provision under the Income-tax Act, 1961 (“the Act”)	Suggestion	Justification for the suggestion
			<p>approved by the High Court, would run the risk of being termed as impermissible under the Act, thereby disregarding the court order. This would result in a situation of overlap and conflict of Constitutional Powers conferred on the Executive and the Judiciary. Hence it is suggested that the GAAR provisions if at all to be enforced be applicable only in case of Non-residents.</p>
15.2	<p>Section 96(2) provides that if the main purpose of even a step in transaction (which is a part of the main transaction / whole arrangement) is to obtain a tax benefit then the entire arrangement may be declared to be an impermissible avoidance arrangement under GAAR provisions. This is so despite the fact that main purpose of the whole arrangement is not to obtain a tax benefit.</p>	<p>It is suggested that the last limb of section 96(2) i.e. <i>“notwithstanding the fact that the main purpose of the whole arrangement is not to obtain a tax benefit”</i> be deleted to avoid any confusion. It may also be categorically provided that an arrangement may not be declared as impermissible if it entails some tax benefit on any step in transaction so as to promote a conducive investment climate. This will also avoid undertaking any unnecessary interpretational exercise.</p>	<p>There will invariably be transactions between entities which will have some element of tax benefit involved at some stage of the transaction. Permitting the revenue to declare an entire arrangement to be impermissible based on some marginal tax benefit achieved by a step in transaction would lead to a situation which would render almost all transactions impermissible. Further as per the wordings used in the section it appears that the entire focus as per section 96(2) shifts and probably acts in contrast to the main provision contained in section 96(1) i.e. declaring an entire arrangement aimed at obtaining tax benefit as impermissible. This will also act as a deterrent to a favourable investment climate.</p> <p>This amendment / clarification is required to avoid any conflicting interpretations within the</p>

			section and also to promote clarity in the law. It will also invoke positive investor confidence aiming at making capital investments in India.
15.3	Under section 97(2) round trip financing is meant to include transactions where funds are transferred among the parties to the arrangement and such transfer of funds lacks <i>substantial commercial purpose</i> .	It is suggested that the word <i>substantial</i> be dropped so as to bring the definition in line with section 97(1). Alternatively, substantial commercial purpose may also be defined in the Act under section 102 like other terms used in the chapter.	The definition contains the phrase ‘ <i>substantial commercial purpose</i> ’. However, the said phrase is not defined and the word substantial may lead to varied interpretations leading to possible difficulties. A clarity on this issue is required so as to avoid any subjective interpretational difficulties and proper, just and equal applicability of the Chapter to all persons covered by it.
15.4	Sections 98 and 99 of the Act provide that as a consequence of attracting GAAR provisions any corporate structure may be disregarded.	A mechanism may be provided whereby instead of the Department disregarding any corporate structure it may be authorised to approach the court in order to decide whether a corporate structure may be disregarded.	Under the Companies Act, only High Court is empowered to pierce the corporate veil and disregard the Corporate Structure. Empowering the Department to so disregard the Corporate Structure may lead to conflict of Constitutional Powers as mentioned above.
15.5	Section 144BA(14) – No right of appeal should be given to the assessee against the direction of the Approving Panel.	The assessee should be given a right to appeal against the directions of the approving panel.	The Approving Panel has only six months to adjudicate on the issue. Further, there can be no extension of the same. In six months’ time, if the approving panel adjudicates on the invocation of Chapter X-A, then a right to appeal should be given to the assessee, otherwise the High Courts will have to exercise their extra-ordinary writ jurisdiction. Further, the

To avoid this harsh application of residential test on other entities and bring uniformity in approach and principles.

Hardly any other country has such a practice. Further, the Companies Act, 2013 also does not have explicit provisions relating to ‘adjustments’ in the books of accounts of the assessee. In any case, Non-discrimination Article in the DTAA’s could be invoked by the non-resident entities.</p> <p>On another front, reciprocal secondary adjustments by the other countries may not be beneficial for India and would hurt the Government’s initiative of enhancing ease of doing business in India.</p> <p>Secondary adjustment would also create major issues under FEMA, as the obligation to receive foreign income is created without the consent or agreement of the foreign party which may refuse to pay such enhanced value.</p>

Section 56(2)(x) itself prescribed the fair value computation.</p> <p>Then to further compute the ALP under Transfer Pricing rules is not relevant.</p>	<p>It may be provided that where the fair value basis for computation of income is prescribed under any provision of Income-tax Act, computation of ALP will not be required.</p> <p>In the Transfer Pricing audit report, the fair value as prescribed under the respective sections, may be reported as ALP.</p>	<p>To avoid the overlap of provisions which may result in irrelevant computation.</p>

The provisions were deferred to be applicable from assessment year 2022-23 (previous year 2021-2022) as the G20-OECD report was expected by the end of December 2020. This report had not come out by December 2020. • India has recently agreed to the Two-Pillar Solution to Address the Tax Challenges Arising from the Digitalisation of the Economy along with other countries which is a culmination of the BEPS Project on Action Plan 1. K. Requirement to obtain Tax Residency Certificate – Introduction of threshold			
16.20	Requirement to obtain Tax Residency Certificate – Introduction of threshold.	<p>Sec. 90(2) provides that in respect of an assessee to whom a DTAA applies, the provisions of the Act shall apply to the extent they are more beneficial to the assessee. However, for this purpose, a Tax Residency Certificate (TRC) is required to be furnished by the claimant. Sub-section (4) applies to all non-residents irrespective of the level of income and the nature thereof. This creates unintended hardship to both non-resident recipient and the resident payer even where amounts involved are not very large and also creates a negative image of the country as it involves time and cost to obtain such Tax Residency Certificate. This also substantially affects business environment.</p>	<p>It is therefore strongly suggested that the threshold, of say Rs. one crore in aggregate from a single payer per annum, be specified for applicability of this provision relating to obtaining a Tax Residency Certificate.</p>
