“Europe: A Continent Forged in Crisis”

Dear Members,

Europe has been a crucible of cultural and intellectual revolutions, birthing the Renaissance, Enlightenment, and the scientific and industrial revolutions. It is a place where ideas, art, and innovation have flourished. Europe has a long history of empires that spanned across the globe, with colonial possessions in various continents but all the 9 empires have vanished. Europe is a continent that has been forged in the crucible of crises such as chaos & discord, aftermath of 2 devastating World Wars, ongoing Ukraine War resulting in Energy Crisis, stormy waters of financial instability, Migration, Environmental sustainability and Political fragmentation. Can Europe remain united?

We will also discuss current Economic & Geopolitical issues impacting India & markets including ongoing tensions between Israel vs. Hamas & Hezbollah.
