POWER SUMMIT 2024

Theme: Walk the Talk

Leverage AI, Technology, Capital & Collaboration

June 28th-29th, 2024

Fountainhead, Alibaug

OPENING NOTE

Beginning with 2011, the BCAS has organised several Power Summits which have strived to help our members bring about a change in their mindset when it comes to running and expanding their practices. Over these years, we have had excellent speakers sharing their wide experience and knowledge with us on a wide range of topics involving practice management, growth strategies, harnessing technology, embracing change, looking at the larger picture, networking and mergers, partner remuneration and many more such topics. Our participants have, over the years, give us very encouraging feedback about the contents of the Power Summits. It is gratifying for us to note that more and more members have now started taking these topics very seriously. This is evident from the spurt in the number of mid sized firms over the years. More and more members are now converging their practices with like minded professionals.

To take forward the momentum created by the past Summits, this year, we are back with another line up of very interesting topics and speakers. We sincerely hope that the Power Summit 2024 will help many participants in taking the plunge and walking the talk by considering merging their practices with others to create larger firms which is the pressing need of the day. Welcome to the Power Summit 2024!
