Lecture Meeting on Fund Raising Opportunities Through GIFT IFSC

Dear Members,

Raising funds through GIFT IFSC offers companies access to global capital while remaining within Indian jurisdiction. It provides significant tax advantages, like lower withholding tax and Non-applicability of Capital Gain Tax and STT/ CTT. The regulatory environment, governed by IFSCA, is liberal, streamlined, and business-friendly. Companies benefit from simplified compliance processes, quicker approvals, and lower operational costs compared to other global financial centers. GIFT IFSC also facilitates easier currency convertibility and robust hedging options. It enables Indian businesses to raise foreign currency funds without necessitating offshore relocation. Fund managers, fintechs, and insurers can build a global presence with strong regulatory support. Overall, GIFT IFSC stands out as a strategic and competitive hub for international financial services from India.
