Webinar on Navigating the Tax and Regulatory Landscape for Private Equity Transactions in India

Dear Members,

In today's dynamic investment landscape, private equity transactions in India face an increasingly complex web of tax and regulatory challenges. With heightened scrutiny from tax authorities, evolving international tax treaties, and regulatory changes impacting fund flows and exit strategies, it has become essential for stakeholders to stay ahead of the curve. This webinar aims to provide a comprehensive overview of the critical developments shaping the PE environment, empowering participants to navigate complexities with clarity and confidence.

The session will delve into the structural intricacies of private equity investments, including fund setups involving fund managers, pooling vehicles, SPVs, and offshore jurisdictions. It will also address practical issues around transaction structuring, pre-acquisition strategies, and capital gains implications under Indian law and relevant DTAAs. Insights into key contractual clauses, recent judicial precedents, and the emerging use of tax insurance products in facilitating smoother deal closures will be shared.

This webinar is particularly relevant for investment professionals, fund managers, in-house legal and tax teams, M&A advisors, and chartered accountants engaged in private equity deals. Whether you're advising on fund formation, evaluating deal structures, or managing post-investment compliance, this session offers strategic and technical insights essential for successful and compliant transaction execution in India.
