

Lecture Meeting on Boosting Business and Professional Productivity through AI

Dear Member's

AI isn't replacing Chartered Accountants—it's **redefining what's possible** and elevating the entire profession.

Are you ready to move **Beyond Compliance** and step into your role as a truly strategic advisor? Many CAs fear the rise of AI, but the reality is that this technology is the key to unlocking unprecedented efficiency, deeper insights, and greater client value.

Join us for an insightful webinar featuring **CA Umesh Sharma**, Chairman of the AI in ICAI committee and Central Council Member. He will share his remarkable experience and a roadmap for how technology will **transform your practice**.

Discover how to:

- Master new tools that eliminate routine work.
- Leverage data for high-level strategic counsel.
- Future-proof your career in the age of intelligent automation.

Don't let the future happen *to* you. Learn how to lead it.
